

Purchase Order Details Report :

1. Objective

Develop an SAP ABAP report to display Purchase Order details along with Vendor, Material, and Goods Receipt (GR) information.

2. Selection Screen

Field	Description	Table-Field
PO Number	Purchase Order Number	EKKO-EBELN

Selection Criteria

- User enters a Purchase Order Number.
 - Report fetches all related PO and GR details.
-

3. Output Fields

Sr. No	Field Description	Table-Field
1	Purchase Order Number	EKKO-EBELN
2	Line Item	EKPO-EBELP
3	Vendor Number	LFA1-LIFNR
4	Vendor Name	LFA1-NAME1
5	Material Number	EKPO-MATNR
6	Material Description	MAKT-MAKTX
7	Ordered Quantity	EKPO-MENGE
8	Price	EKPO-NETPR
9	Goods Receipt Number	MSEG-MBLNR

Sr. No	Field Description	Table-Field
10	Goods Receipt Year	MSEG-MJAHR
11	GR Quantity	MSEG-MENGE
12	Remaining Quantity	Ordered Qty – GR Qty

4. Tables Used

Table	Purpose
EKKO	Purchase Order Header
EKPO	Purchase Order Item
LFA1	Vendor Master
MAKT	Material Description
MSEG	Material Document / GR Details
MKPF (Optional)	Material Document Header

5. Business Logic

Step 1

Read Purchase Order Header data from **EKKO** based on entered PO Number.

Step 2

Fetch Purchase Order Item details from **EKPO**.

Step 3

Get Vendor details from **LFA1** using Vendor Number.

Step 4

Get Material Description from **MAKT** using Material Number.

Step 5

Fetch Goods Receipt details from **MSEG**:

- Material Document Number (MBLNR)
- Material Document Year (MJahr)
- GR Quantity (MENGE)

Step 6

Calculate Remaining Quantity:

$$\text{Remaining Quantity} = \text{Ordered Quantity} - \text{GR Quantity}$$

Step 7

Display all data in an ALV Grid Report.

6. Report Type

- Executable Program (SE38)
- ALV Grid Output
- Single Selection Parameter (PO Number)
